## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### Auto Desk 3D'S MAX (CE-01)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 25.10.2021 to 30.10.2021. at CIVIL department, for the Academic Year 2021-22. This program was conducted for all the B. Tech students of II Year during the Academic Year 2021-22 from 10:00 AM to 4:30 PM daily on topic of "Auto Desk 3D'S MAX (Course code: CE-01)" by the resource T Srujankumar, Assistant Professor KITSW-Nizamabad. Total - 30 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Auto Desk 3D'S MAX was:

1. Know the concepts of Creating Shapes with Splines
2. How the Design Editing Meshes and Creating Complex Objects work and how to test
3. This will aid in development of skills to diagnose and trace civil problems that may occur. This will also help give the knowledge of civil Rendering Scenes for troubleshooting issues with your buildings.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### Structural Optimization by Using ANSYS (COURSE CODE: CE-02)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour. The program was conducted from 16.09.2020 to 22.09.2020.. at CIVIL department, for the Academic Year 2020-21. This program was conducted for all the B. Tech students of III Year during the Academic Year 2020-21 from 10:00 AM to 4:30 PM daily on topic of " **Structural Optimization by Using ANSYS (COURSE CODE: CE-02)**" by the resource person N Ravindra, Assistant Professor KITSW-Nizamabad. Total -30 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Structural Optimization by Using ANSYS was:

1. Know the concepts of General Preprocessing
2. How is the Preprocessing, Modal Analysis and how to test
3. This will aid in development of skills to diagnose and trace civil problems that may occur. This will also help give the knowledge of Reinforced concrete & steel design for troubleshooting issues with your buildings.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### STAAD PRO (COURSE CODE: CE-04)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armoor. The program was conducted from 23.09.2019 to 28.09.2019. at CIVIL department, for the Academic Year 2019-20. This program was conducted for all the B. Tech students of II Year during the Academic Year 2019-20 from 10:00 AM to 4:30 PM daily on topic of "STAAD PRO (COURSE CODE: CE-04)" by the resource person Mr. Sanket Kalshetty, Assistant Professor KITSW-Nizamabad. Total -30 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program STAAD PRO was:

1. Know the concepts of Structural analysis capabilities of StaadPro
2. How Preprocessing, Analysis & Postprocessing work and how to test
3. This will aid in development of skills to diagnose and trace civil problems that may occur. This will also help give the knowledge of Reinforced concrete & steel design for troubleshooting issues with your buildings.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

### RCC MANUAL DESIGN (CE-01)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 10.09.2018 to 15.09.2018. at CIVIL department, for the Academic Year 2018-19. This program was conducted for all the B. Tech students of II Year during the Academic Year 2018-19 from 10:00 AM to 4:30 PM daily on topic of "RCC MANUAL DESIGN (CE-01)" by the resource person Mr. Sanket Kalshetty, Assistant Professor KITSW-Nizamabad. Total -30 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program RCC MANUAL DESIGN was:

1. Know the concepts of Shear, Bond and Torsion
2. How Design of Two-way slabs with different end conditions work and how to test
3. This will aid in development of skills to diagnose and trace civil problems that may occur. This will also help give the knowledge of civil for troubleshooting issues with your buildings.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### Electrical Estimation and Energy Auditing (COURSE CODE: EEE-2205)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 12-09-2022 to 30-09-2022. at EEE department, for the Academic Year 2022-23. This program was conducted for all the B. Tech students of IV Year during the Academic Year 2022-23 from 04:00 PM to 06:00 PM daily on topic of "**Electrical Estimation and Energy Auditing (EEE-2205)**" by the resource person Mrs. P. MOUNIKA, Assistant Professor VREC-Nizamabad. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Electrical Estimation and Energy Auditing was:

1. Introduction, Classification of Energy – Primary and Secondary Energy, Commercial Energy and Non-commercial Energy and Renewable & Non-renewable energy; Various forms of Energy – potential (stored energy) and kinetic(working) energy; Energy reserves and production; , Energy consumption, Energy units & conversions.
2. Introduction to electric power supply systems, Electricity billing, Electrical load management and maximum demand control, Transformers, Distribution losses in industrial system, Assessment of transmission and distribution losses in power systems, Estimation of technical losses in distribution system, Demand side management, Harmonics, Analysis of electric power systems.
3. Definition and objectives of energy management, Energy audit – types and methodology, Need for energy audit, Energy auditing methodology, Understanding energy costs, Benchmarking, Energy performance, Maximizing system efficiency, Instruments and metering for Energy Audit.

### ADD-ON PROGRAM

#### Smart Grid Technology (COURSE CODE: EEE-2103)

The Add-on Program is successfully conducted at Kshatriya College of engineering, Chepur-Armour. The program was conducted from **06-12-2021 to 23-12-2021**. at EEE department, for the Academic Year 2021-22. This program was conducted for all the B. Tech students of III Year during the Academic Year 2021-22 from 04:00 PM to 06:00 PM daily on topic of **"Smart Grid Technology (EEE-2103)"** by the resource person A.MARUTHI, Assistant Professor VREC-Nizamabad. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Smart Grid Technology was:

1. Basics of power systems, the definition of smart grid, need for smart grid, smart grid domain, enablers of smart grid, smart grid priority areas, regulatory challenges, smart-grid activities in India.
2. Smart grid architecture, standards-policies, smart-grid control layer and elements, network architectures, IP-based systems, power line communications, supervisory control and data acquisition system, and advanced metering infrastructure.
3. Introduction to Distribution Energy Sources, Renewable Energy Technologies – Microgrids – Storage Technologies –Electric Vehicles and plug – in hybrids – Environmental impact and Climate Change – Economic Issues.
4. Introduction to Communication Technology, Two Way Digital Communications Paradigm, Synchro-Phasor Measurement Units (PMUs) – Wide Area Measurement Systems (WAMS)- Introduction to Internet of things (IoT)- Applications of IoT in Smart Grid.

### ADD-ON PROGRAM

#### Making & Maintenance of Electrical Appliances (COURSE CODE: EEE-2001)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **07-09-2020 to 24-09-2020**. at EEE department, for the Academic Year 2020-21. This program was conducted for all the B. Tech students of II Year during the Academic Year 2020-21 from 04:00 PM to 06:00 PM daily on topic of "**Making & Maintenance of Electrical Appliances (EEE-2001)**" by the resource person B. MAHENDAR, Assistant Professor KITSW-Nizamabad. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Making & Maintenance of Electrical Appliances was:

1. General idea on Various Electrical Measuring Instruments/ Components Types, Multimeter (Digital/ Analog), Energy meter (Digital/analog), Insulation Tester (Megger), Earth tester. Ammeter, voltmeter, Different types of switches, fuse, thermostat, heating elements, registers, conductors, insulators, capacitors, wires and cables (for up to 15 amp) symbol of various components.
2. Identification, working and specification of each part. Repairing for some common problems, replacement of coil, insulators, thermostat etc.
3. Assemble different type of inverters circuit & its measurements. Assemble battery charger circuit used in inverter with protection circuit. Assemble Online/Offline UPS & its measurements. Test, faultfinding & repair of given power supply. (DC to AC converter, Types of inverter, its different blocks & oscillators circuits Battery chargers & its protection circuit. UPS working principles of- line & On line UPS circuit used in UPS.

### EV Technology & Public Charging Stations (COURSE CODE: EEE-1905)

- AN OVERVIEW OF EV CHARGING INFRASTRUCTURE
  - Characteristics of EV supply equipment
  - EV charging standards for interoperability from charging stations to charging points
- MULTI-STAKEHOLDER GOVERNANCE OF EV CHARGING
  - Classification of EV charging infrastructure
  - Roles and responsibilities of government stakeholders
  - Charge point operators and e-mobility service providers
- ASSESSING CHARGING DEMAND AND SETTING TARGETS
  - Setting targets for EV charging infrastructure
  - Assessing EV charging demand
- LOCATION PLANNING AND LAND ALLOCATION
  - Principles of location planning for public EV charging Geospatial analysis and site selection Land allocation for public charging infrastructure
- CONNECTING EVs TO THE ELECTRICITY GRID
  - Regulatory framework for EV charging connections Role of DISCOMs in providing power connections arranging for electricity supply for charging
- ACHIEVING EFFECTIVE EV-GRID INTEGRATION
  - Improving the utilization of the electricity grid Integrating EV charging in grid planning

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### EV Technology & Public Charging Stations (EEE-1905)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **05-08-2019 to 23-08-2019**. at EEE department, for the Academic Year 2019-20. This program was conducted for all the B. Tech students of IV Year during the Academic Year 2019-20 from 04:00 PM to 06:00 PM daily on topic of **"EV Technology & Public Charging Stations (EEE-1905)"** by the resource person **Mr. ANNASI RAO, Assistant Professor KITSW-Nizamabad. Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program EV Technology & Public Charging Stations was:

1. EVs produce significantly fewer greenhouse gas emissions than gasoline or diesel-powered vehicles, leading to improved air quality and reduced climate change impacts.
2. EVs are powered by electricity, which can be generated from a variety of sources, including renewable energy sources such as solar and wind power. This reduces reliance on foreign oil and increases energy independence.
3. EVs can save drivers money on fuel and maintenance costs over the lifetime of the vehicle. Additionally, as battery technology continues to improve, the cost of EVs is expected to decrease.
4. The development and deployment of EVs and charging infrastructure can create jobs in manufacturing, installation, and maintenance.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

### AUTO ELECTRICIAN (EEE-1803)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **16-07-2018 to 02-08-2018**. at EEE department, for the Academic Year 2018-19. This program was conducted for all the B. Tech students of III Year during the Academic Year 2018-19 from 04:00 PM to 06:00 PM daily on topic of "**AUTO ELECTRICIAN (EEE-1803)**" by the resource person B. MAHENDAR, Assistant Professor KITSW-Nizamabad. **Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program AUTO ELECTRICIAN was:

1. Know the concepts of Volts, Amps, Resistance (Ohms), Ohms law, Kirchhoff's current and voltage laws, Using a multimeter, how to do "Volt Drop", How to measure Amps, using both a Amp Clamp and a Amp Meter.
2. How relays work and how to test, How to carry out drag tests on wiring and using wiring diagrams for electrical diagnosis.
3. This will aid in development of skills to diagnose and trace electrical problems that may occur. This will also help give the knowledge of electrical flow for troubleshooting issues with your personal vehicles.

## SUMMARY REPORT

ON

## ADD-ON PROGRAM

## CATIA(COURSE CODE: ME-01)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 12-09-2022 to 27-09-2022. at MECH department, for the Academic Year 2022-23. This program was conducted for all the B. Tech students of II,III,IV YEAR I SEM during the Academic Year 2022-23 from 4:00PM to 6:00PM daily on topic of "CATIA(COURSE CODE:ME-01)" by the resource person **Mr.K.NARESHRAJ Assistant Professor KCEA**. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program CATIA(COURSE CODE: ME-01)

- 1.This may involve creating custom modules, features, or tools to integrate seamlessly with the existing CATIA environment.
2. Conducting rigorous testing to ensure the stability, performance, and compatibility of the add-on program with different versions of CATIA and across various operating systems.
3. Allowing users to customize their CATIA environment according to their preferences and requirements by adding or removing specific features provided by the add-on program..
4. Cost-effective solutions compared to developing custom functionalities from scratch, thereby offering significant cost savings for organizations.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM 3D PRINTING(COURSE CODE: ME-04)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armoor . The program was conducted from 06-12-2021 to 23-12-2021. at MECH department, for the Academic Year 2021-22.

This program was conducted for all the B. Tech students of II YEAR I & III- I SEM Year during the Academic Year 2021-22 from 4:00PM to 6:00PM daily on topic of " 3D PRINTING(COURSE CODE: ME-04)" by the resource person

Mr.A KIRAN KUMAR, Assistant Professor KCEA. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

### The outcome of the program 3D PRINTING(COURSE CODE: ME-04)

- This module is specifically designed for simulating the additive manufacturing process. It helps optimize the printing process by predicting and mitigating potential issues such as distortion, residual stresses, and microstructure variations. Users can analyze the thermal, mechanical, and microstructural aspects of the 3D printing process.
- This suite includes multiple tools that cater to different aspects of additive manufacturing. It often includes modules like Additive Print, which focuses on the printing process, and other tools that address aspects such as material property prediction, design optimization for additive manufacturing, and post-processing simulation.
- While not specific to 3D printing, ANSYS Workbench is a general platform that integrates various ANSYS tools, including those for additive manufacturing simulation. It allows for a cohesive workflow, enabling users to combine different simulations and analyses in a unified environment.
- This module can be used for structural analysis, which is crucial for predicting the mechanical behaviour of components manufactured through additive processes. It helps assess factors such as stress, deformation, and fatigue.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM ANSYS(COURSE CODE: ME-03)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armoor . The program was conducted from 07-09-2020 to 24-09-2020. at MECH department, for the Academic Year 2020-21.

This program was conducted for all the B. Tech students of II Year during the Academic Year 2020-21 from 4:00PM to 6:00PM daily on topic of " ANSYS(COURSE CODE: ME-03)" by the resource person Mr.S SURESH, Assistant Professor KCEA. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program ANSYS(COURSE CODE: ME-03)

- 1.This may involve creating custom modules, features, or tools to integrate seamlessly with the existing ANSYS(COURSE CODE: ME-03) environment
- 2 This module is focused on structural analysis and includes capabilities for linear and nonlinear structural simulations, thermal analysis, and modal analysis.
3. A module for computational fluid dynamics (CFD) simulations. It is used for analyzing fluid flow, heat transfer, and related phenomena
4. Another CFD module, often used for simulating complex fluid flows with a focus on high-performance computing.
5. AIM (ANSYS Integrated Multiphysics) is a module that provides a simulation environment for conducting multiphysics simulations. It covers structural, thermal, fluid dynamics, and electromagnetic simulations in an integrated manner.
6. LS-DYNA is a module for explicit dynamic analysis, often used for simulating events like crash simulations and other transient phenomena.
7. A module for creating and preparing geometry for simulation within the ANSYS environment.

## SUMMARY REPORT

### ON ADD-ON PROGRAM 3D-MODELLING (COURSE CODE: ME-02)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour. The program was conducted from 05-07-2019 to 23-08-2019, at MECH department, for the Academic Year 2019-20. This program was conducted for all the B. Tech students of II Year during the Academic Year 2019-20 from 4:00PM to 6:00PM daily on topic of "3D MODELLING (COURSE CODE: ME-02)" by the resource person Mr. MUBEEN SHAIK, Assistant Professor KCEA. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

#### The outcome of the program 3D MODELLING (COURSE CODE: ME-02)

1. This may involve creating custom modules, features, or tools to integrate seamlessly with the existing 3D-MODELLING (COURSE CODE: ME-02) environment
2. These tools allow users to create 3D geometry by manipulating vertices, edges, and faces. Common modeling tools include extrusion, beveling, boolean operations, sculpting, and subdivision surface modeling.
3. UV mapping is the process of creating a 2D texture map that corresponds to the surfaces of a 3D model. UV mapping modules within 3D software help users efficiently unwrap and layout UV coordinates for texturing.
4. This module allows users to apply textures and materials to 3D models to enhance their appearance. Users can create or import textures, adjust material properties such as color, reflectivity, roughness, and apply shaders for realistic rendering.
5. Animation modules enable users to create movement and motion within 3D scenes. This includes keyframe animation, rigging, character animation, and simulation tools for physics-based animation like cloth, particles, and fluids.
6. Advanced users can utilize scripting modules to automate repetitive tasks, customize workflows, or extend the functionality of the software through scripting languages like Python, MEL (Maya Embedded Language), or MaxScript.

## SUMMARY REPORT

ON

## ADD-ON PROGRAM

### **CREO(COURSE CODE: ME-01)**

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 16-07-2018 to 02-08-2018. at MEC department, for the Academic Year 2018-19. This program was conducted for all the B. Tech students of II Year during the Academic Year 2018-19 from 4:00PM to 6:00PM daily on topic of "CERO(COURSE CODE:MEC-01)" by the resource person Mr. V. VEDA PRAKASH, Assistant Professor KCEA. Total -20 students attended the program. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program CERO(COURSE CODE: ME-01)

- 1.This may involve creating custom modules, features, or tools to integrate seamlessly with the existing CREO environment.
2. Conducting rigorous testing to ensure the stability, performance, and compatibility of the add-on program with different versions of CREO and across various operating systems.
3. Allowing users to customize their CREO environment according to their preferences and requirements by adding or removing specific features provided by the add-on program..
4. Cost-effective solutions compared to developing custom functionalities from scratch, thereby offering significant cost savings for organizations.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### **Embedded C (Course code: ECE-019)**

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **12.09.2022 to 29.09.2022**. at ECE department, for the Academic Year 2018-19. This program was conducted for all the B. Tech students of III Year during the Academic Year 2022-23 from 04:00 PM to 06:00 PM daily on topic of

" **Embedded C (Course code: ECE-019)**"

by the resource person **SATHISH, Assistant Professor KITSW-Nizamabad. Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program **Embedded C (Course code: ECE-019)** was:

1. Know the concepts Embedded c language and its applications
2. How the coding takes place in embedded c.
3. This will aid in writing the embedded c programs for real time applications

### CONCEPTS OF MOBILE COMMUNICATIONS (ECE-015)

#### SYLLABUS

##### **MODULE:I**

##### **EVOLUTION OF MODERN MOBILE COMMUNICATION**

Personal communications systems- Wireless local area networks- Wireless broadband access systems  
- Wireless wide area networks- Cellular systems and design fundamentals.

##### **MODULE: II**

##### **2G AND 3G CELLULAR SYSTEMS**

GSM Architecture- Air interface- Protocols and Signaling- GPRS Architecture- Signaling  
Mobility and location management- Interfaces and Protocols- Overview of IS-95- UMTS  
Architecture- Interfaces and Protocols- Mobility Management- Handover and security  
Procedure.

##### **MODULE: III**

IEEE 802.11 WLAN standard and its variants- PHY layer technologies- MAC  
mechanism- Security, QoS and handover issues- IEEE 802.15 WPAN standard- Bluetooth  
Architecture and Protocol stack- IEEE 802.16 Wireless broadband access standard- PHY and  
MAC layer Overviews- Wi MAX network architecture- Initialization and handover  
procedures.

##### **MODULE: IV**

HSPA and LTE- Architecture- Radio interface and channels-  
Resource mapping, Session, mobility and security procedures- LTE  
Advanced- Heterogeneous Networks Inter networking IP based  
coupling Architecture- Multimode terminals and inter system handover.

##### **MODULE: V**

Mobile IP- Packet delivery process- Routing optimization- Mobile ad-  
Hoc networks and routing mobile TCP- Wireless Application Protocols.

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### CONCEPTS OF MOBILE COMMUNICATIONS (ECE-015)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **06.12.2021 to 23.12.2021**. at ECE department, for the Academic Year 2021-22. This program was conducted for all the B. Tech students of II Year during the Academic Year 2021-22 from 04:00 PM to 06:00 PM daily on topic of

" **Principles of Electronic Communications (Course code: ECE-004)**"

by the resource person **MAHIPAL, Assistant Professor KITSW-Nizamabad. Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program

CONCEPTS OF MOBILE COMMUNICATIONS was:

1. Know the concepts of **EVOLUTION OF MOBILE COMMUNICATION**
2. How **2G AND 3G CELLULAR SYSTEMS** works

### Add -On Program

### DIGITAL ELECTRONICS APPLICATIONS (ECE-009)

#### SYLLABUS

#### Module: I

**Fundamentals of Digital Systems and Logic Families:** Digital signals, digital circuits, AND, OR, NOT, NAND, NOR and Exclusive-OR operations, Boolean algebra, examples of IC gates, number systems-binary, signed binary, octal hexadecimal number.

**Module: II Combinational Digital Circuits:** Standard representation for logic functions, K-map representation, and simplification of logic functions using K-map, minimization of logical functions. Don't care conditions, multiplexer, De-Multiplexer/Decoders

#### Module: III

**Sequential Circuits and Systems:** A 1-bit memory, the clocked SR flip flop, J, K, T and D types flip-flops, applications of flip-flops, shift registers, applications of shift registers, serial to parallel converter.

**Module: IV A/D and D/A Converters:** Digital to analog converters: weighted resistor/converter, R-2R Ladder *DIA* converter, specifications for *DIA* converters, examples of D/A converter ICs, sample and hold circuit, analog to digital converters: quantization and encoding, parallel comparator *AID* converter.

**Module: V Semiconductor Memories and Programmable Logic Devices:** Memory organization and operation, expanding memory size, classification and characteristics of memories, sequential memory, read only memory), read and write memory (RAM).

## SUMMARY REPORT

### ADD-ON PROGRAM

#### DIGITAL ELECTRONICS APPLICATIONS (ECE-009)

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from 07.09.2020 to 24.09.2020. at ECE department, for the Academic Year 2020-21. This program was conducted for all the B. Tech students of II Year during the Academic Year 2020-21 from 04:00 PM to 06:00 PM daily on topic of

#### " DIGITAL ELECTRONICS APPLICATIONS (ECE-009)"

by the resource person **Devendher, Assistant Professor, KCEA-Nizamabad. Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program **DIGITAL ELECTRONICS APPLICATIONS** was:  
1. Know the concepts of **Fundamentals of Digital Systems and Logic Families** 2. Know the **Combinational Digital Circuits.**

3. This will aid in development of skills in **Semiconductor Memories and Programmable Logic Devices**

Add -On Program on

### 8051 Microcontrollers Programming & Applications (ECE-007)

#### Syllabus

#### **8051 Microcontroller**

Microprocessor vs Microcontroller, Embedded Systems, Embedded Microcontrollers, 8051 Architecture- Registers, Pin diagram, I/O ports functions, Internal Memory organization. External Memory (ROM & RAM) interfacing.

#### **8051 Instruction Set:**

Addressing Modes, Data Transfer instructions, Arithmetic instructions, Logical instructions, Branch instructions, Bit manipulation instructions. Simple Assembly language program examples (without loops) to use these instructions.

#### **8051 Stack, I/O Port Interfacing and Programming:**

8051 Stack, Stack and Subroutine instructions. Assembly language program examples on subroutine and involving loops.

Interfacing simple switch and LED to I/O ports to switch on/off LED with respect to switch status.

#### **8051 Timers and Serial Port:**

8051 Timers and Counters - Operation and Assembly language programming to generate a pulse using Mode-1 and a square wave using Mode- 2 on a port pin. 8051 Serial Communication- RS- 232 standard, 9 pin RS232 signals, Simple Serial Port programming in Assembly and C to transmit a message and to receive data serially.

#### **8051 Interrupts and Interfacing Applications:**

8051 Interrupts. 8051 Assembly language programming to generate an external interrupt using a switch, Interfacing 8051 to ADC-0804, DAC, LCD and Stepper motor and their 8051 Assembly language interfacing programming

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

#### **MICROCONTROLLERS PROGRAMMING & APPLICATIONS (ECE-007)**

The Add-on Program is successfully conducted at Kshatriya college of engineering, Chepur-Armour . The program was conducted from **05.08.2019 to 21.08.2019**. at ECE department, for the Academic Year 2019-20. This program was conducted for all the B. Tech students of III Year during the Academic Year 2019-20 from 04:00 PM to 06:00 PM daily on topic of

**" Microcontrollers Programming & Applications (ECE-007)"**

by the resource person **RAJENDHAR, Assistant Professor VREC-Nizamabad. Total -20 students attended the program.** Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support.

The detailed Brochure and photos are attached here with.

The outcome of the program **Microcontrollers Programming & Applications** was:

1. Know the concepts of Microcontrollers and Micro Processors
2. know 8051 architecture and pin diagram
3. know Practical applications of 8051 microcontroller in real time

### Add -On Program on

### PRINCIPLES OF ELECTRONIC COMMUNICATION (ECE-004)

#### SYLLABUS

**MODULE: I Introduction:** Introduction, Need for modulation, Frequency translation, Electromagnetic spectrum, Gain, Attenuation & decibels

**MODULE: II Simple Description on Modulation:** Analog Modulation - AM, FM, Pulse Modulation- PAM, PWM, PCM, Digital Modulation Techniques - ASK, FSK, PSK, QPSK .Modulation and demodulation schemes.

#### MODULE: III

**Telecommunication Systems:** Telephone system, Paging Systems, Internet Telephony. **Networking & Local Area Networks:** Network fundamentals, LAN hardware, Ethernet LANs, Token Ring LAN.

**MODULE:IV Satellite Communication:** Satellite Orbits, Satellite Communication systems, Satellite Subsystems, Ground stations, Satellite Applications, Global Positioning systems.

**Optical Communication:** Optical Principles, Optical Communication Systems, Fibre Optic Cables, Optical Transmitters & Receivers, Wavelength Division Multiplexing.

#### MODULE: V

**Cellular & Mobile Communications:** Cellular telephone systems, AMPS, GSM, CDMA & WCDMA

**Wireless Technologies:** Wireless LAN, PANs & Bluetooth, Zig Bee & Mesh Wireless networks, Wimax and MANs, Infrared wireless, RFID Communication, UWB, Ground Station Satellite Applications

## SUMMARY REPORT

ON

### ADD-ON PROGRAM

### PRINCIPLES OF ELECTRONIC COMMUNICATIONS

The Add-on Program is successfully conducted at

Kshatriya college of engineering, Chepur-Armoor . The program was conducted from **16-07-2018 to 02-08-2018**. at ECE department, for the Academic Year 2018-19. This program was conducted for all the B. Tech students of IV Year during the AY 2018-19 from 04:00 PM to 06:00 PM daily on topic of " **Principles of Electronic Communications**"

by the resource person **PRAKASH PATIL, Assistant Professor VREC-Nizamabad**. **Total -20 students attended the program**. Feedback was collected on the last day of the Program from the students. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of KCEA. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program **Principles of Electronic Communications** was:

1. Know the concepts of Communications and modulation and demodulation.
2. How communication takes in satellites, mobile phones.
3. This will aid in development of skills to diagnose and trace communication problems that may occur. This will also help give the knowledge of troubleshooting issues with your personal communication devices.

### Add-On Program for III Year(A.Y-2022-23)

#### ADVANCED PYTHON PROGRAMMING

##### Detailed Outlines

#### Section 1 – Functional Programming -- 4 hours

- Lambdas -- List Comprehensions -- Set and Dictionary Comprehensions
- Closures and Decorators -- Generators and Coroutines
- Generator Expressions -- Declarative Programming

#### Section 2 – Systems Programming -- 4 hours

- File Descriptors – Reading and Writing Files -- Files and Directories
- File Locking – Memory Mapping I/O – Creating Processes – Process Management
- Pipes and Signals

#### Section 3 – Classes and Objects -- 4 hours

- New Style Classes – Inheritance and Mixins
- Properties and Slots – Static and Class Methods
- Abstract Base Classes – Method Overriding
- Attributes and Functions – Decorators and Factories
- Descriptors and MetaClasses

#### Section 4 – Persistence and Databases -- 4 hours

- Shelve and Pickle – SQL Relational Databases
- Connection, Cursor, Row Objects – Create, Read, Update, Delete
- Error Handling – Query Results and Metadata – Create and Aggregate Functions
- Exporting and Importing – Transactions and Rollbacks – Database Objects

#### Section 5 – Network Programming -- 4 hours

- Sockets and Addresses – Establishing Connections
- TCP Clients and Servers – UDP Clients and Servers
- UDS Clients and Servers – Network Objects – SocketServers – Secure Sockets Layer

#### Section 6 – Web Programming -- 4 hours

- JSON and XML – Using XML-RPC – Rest Interfaces
- WSGI and HTML – Flask Framework – Controller Functions
- Templates and Forms – Database ORMs

## ADD-ON PROGRAM

### ADVANCED PYTHON PROGRAMMING

The Add-On program is successfully conducted at Kshatriya College of Engineering, chepur. The program was conducted from 12.09.2022 TO 24.09.2022 at CSE Department for the Academic Year 2022-23, for B.Tech students of III Year I Sem from 03:00 PM To 06:00 PM daily on Topic of " **Advanced Python Programming**" by the resource person Mr. NAGARJUN , Assistant professor, KITW. Total 50 Students were attended the Program. Feedback has been collected from the students on the last day of the program. It has high impact to improve the skills that can help the Student in their career. I thank all faculty and students of KCEA for their support to complete the program successfully and special thanks to the Technical staff for their support. The detailed Brochure and Photos are attached here with.

The Outcome of the Program of Advanced Python Programming:

By completing the course the students will be able:

- Work with multi-dimensional lists and know when to use tuples and sets to model real-world data.
- Build robust programs that validate external data and handle errors gracefully.
- Manipulate the file system programmatically from Python.

### Add-On Program for II Year(A.Y-2021-22)

#### ETHICAL HACKING

##### Detailed Outlines

#### Module 1: Principles of Hacking & Legal Parameters

4HOURS

- Ethical Hacking Overviews
- Principles of Ethical hacking
- Hacking Methodologies
- Role of Ethical Hacker
- Scope & limitations of hacking
- Cyber Threats and Attacks Vectors
- Hacking tools and techniques
- Policies and Controls
- Overview of PT / VA

#### Module 2 : Viruses, Trojans, Malwares, and OS Level Attacks and Counter Measures.

##### Malware Analysis

4HOURS

- Malware Overviews
- Virus Worm & Trojan Concepts
- Malware Analysis

#### Module 3 : Foot printing , Enumeration, Scanning, Sniffing, Social Engineering

4HOURS

- Footprinting through Search Engines, Web Services
- Footprinting through Web Services
- Enumeration
- Scanning targets
- Sniffing Network
- Social Engineering

#### Module 4: SQL Injection, DOS Attacks, Session hijacking and System hacking

4HOURS

- SQL Injection
- DOS Attacks
- Session Hijacking
- System Hacking

#### Module 5: Web Applications and Web Servers attacking methodology and Counter measures.

4HOURS

- Basics to Web application & threats
- OWASP Top 10 Application Security Risks
- Web Hacking methodology and tools
- Introduction to Web Server
- Counter measures

## Module 6: IoT and Cloud Attacks and Defense Mechanisms

4HOURS

- IOT Concept and Attacks
- Cloud Computing Overview
- Threats and attack in Cloud
- Cloud Security and tools

## Module 7: Mobile & Wireless Networks Hacking and Counter measures

4HOURS

- Mobile Hacking
- Wireless Overview
- Wireless Hacking Methodology

## Module 8 : Firewall, IDS and honeypot evasion techniques, evasion tools, and countermeasures

4HOURS

- Basics of Firewalls, IDS, Honeypots
- IDS/Firewall/Honeypot Evasion Techniques

## Module 9 : Cryptology, Vulnerability Analysis, Logging and Audit.

4HOURS

- Introduction to Cryptography Concepts
- Encryption Algorithms
- Email, Disk Encryption and Cryptanalysis
- Vulnerability Analysis

## ADD-ON PROGRAM

## BIG DATA ANALYTICS

The Add-On program is successfully conducted at Kshatriya College of Engineering , chepur. The program was conducted from 07.09.2020 TO 24.09.2020 at CSE Department for the Academic Year 2020-21,for B.Tech students of IV Year I Sem from 04:00 PM To 06:00 PM daily on Topic of “ **Big Data Analytics**” by the resource person **Mrs.N. SWAPNA**, Associate Professor, VREC. Total 22 Students were attended the Program. Feedback has been collected from the students on the last day of the program.. It has high impact to improve the skills that can help the Student in their career. I thank all faculty and students of KCEA for their support to complete the program successfully and special thanks to the Technical staff for their support. The detailed Brochure and Photos are attached here with.

The Outcome of the program of Big Data Analytics:

By completing the course the students will be able:

- Understand Big Data and its Analytics in the real-world.
- Analyze the Big Data Frame work like Hadoop and NOSQL to efficiently store and process Big Data to generate analytics.
- Design of Algorithms to solve Data Intensive problems using Map Reduce Paradigm.
- Design and Implementation of Big Data Analytics.
